Saliou Diaw

Full-Stack Developer | Tech Lead

Thiès, Senegal | saliou.pro@proton.me
zaldev.github.io | linkedin.com/in/salioudiaw | github.com/zaldev

SUMMARY

Full-Stack Developer and Tech Lead with 2+ years of professional experience building and shipping production web applications as part of a team. Core stack: React with TypeScript on the front end and Laravel on the back end, with working proficiency in Python (Django, FastAPI) and Java (Spring Boot). I also act as Tech Lead at CROUS-T: code reviews, coding standards, delivery tracking and mentoring interns.

EXPERIENCE

Software Engineer / Tech Lead, CROUS-T — Oct 2024 – Present
Centre Régional des Œuvres Universitaires Sociales de Thiès, Senegal | croust.sn

- One of the main developers of SiRH, the HR information system: staff records, contracts, leave, payroll and career progression. React (TypeScript), Laravel REST API, MySQL. (sirh.croust.sn)
- One of the main developers of Financial (since Oct 2025), the finance platform: expenses and supporting documents, payment orders, budget amendments and chart of accounts. (financial.croust.sn)
- Team member on SyGOST since Jan 2025: management of university restaurants and student housing (meals and meal tickets, restaurants and concession holders, invoicing, bed allocation). (sygost.croust.sn)
- Made changes to Silos, a collaborative platform for businesses (Nov 2024 – Feb 2025).
- As Tech Lead: code reviews, coding standards, delivery tracking in Jira, and mentoring interns.

IT Assistant, Institut Pasteur de Dakar — Aug 2023 – Oct 2023
Diamniadio, Senegal | pasteur.sn

- IT maintenance, technical support and management of the internal IT systems of a biomedical research institute.

Software Developer (remote), Kritek — Dec 2021 – Feb 2022
Czech Republic | kritek.eu

- Developed web applications and custom PrestaShop e-commerce templates and modules for a European client, fully remote.
